'BLUEWATER'

ORIGINAL & THE LOVEFREEKZ MIXES

Never moving far from massive tunes the legendary **Positiva** unleash their latest gem in the name of '**Blue Water**' from **Black Rock**.

More often than not though a real Miami record can be simmering away months before the right time comes and '**Blue Water**' definitely falls into this category. It's already a massive underground anthem with the likes of **Erick Morillo, Pete Tong, Lee Cabrera, Tall Paul, Lottie, Robbie Rivera, Judge Jules, Michael Gray**, and many more. Originally available in limited numbers on **Phonetic** Recordings, **Positiva** pick it up for a full release and once again service a big fat double pack C/O **Black Rock** and new remixes from **The Lovefreakz**.

'Blue Water' is the work of **Andre Schmid** (aka **Rozzo** from '**Into Your Heart**' fame) and **Dimitri Derisiotis** (formerly of **Dimitri & Tom**), and features the vocals from rising talent, **Debra Andrew**. The original has that vibe that flows immensely and has radio written all over it as much as it has club. Big strings, catchy as hell lyrics, in yer face melodies which will have you instantly hooked. For the less vox minded don't worry they have included the Instrumental which contains over seven minutes of pure heaven. Fresh from their UK Top 10 **The Lovefreakz** are employed to add their magic touch and inject a dose of Glam-funk, fusing old skool elements, funky Electronica house beats which all compliment the vocal to a tee. If that wasn't enough check out the **Dub** for some deeper instrumental goodness.

THIS REALLY IS ONE HUGE NUMBER ONE PRIORITY IN THE FORTHCOMING WEEKS
