Belgian Producer & DJ **Dave McCullen's** track **Bitch** has been around since Spring 2005. Picked up by the fantastic Nebula imprint back in March and featured the original mix on the **Nebula** summer sampler across the Med. This combined with import copies from France and Belgium built the track into a genuine summer Ibiza / Majorca club and bar hit getting massive reactions from the all new Space Terrace to beach bar Bora Bora to super club BCM. Bitch has gone on to be **Pete Tong's Essential New Tune** whilst further support from the likes of **Bob Sinclar, Mark Wilkinson, Deepgroove, Trophy Twins, Phats & Small** and **Marc Hughes**. Bitch is set for a full UK release in November and looks set to become one of the anthems of the year and features here in it's original form along with re-works from the **Hoxton Whores, Sunset Strippers** and **Alberkam**. **Hoxton whores** go for an old skool Ultraflava vibe on their **Seven Year Hitch** remix and add some harder synth stabs on their **Seven Year Bitch** remix. **Sunset Strippers** also offer up two remixes, a million miles from their chart sound, the main mix being a building filtered house affair and their **Sunset Stripped** mix adding a tougher electro tinged edge. **Alberkam** give it the full on dirty French bass driven touch for the heads down crews. With a double pack as big as this no doubt to say this is **Powers** and **Nebula's Essential Number One Priority** in the forthcoming weeks.
