****ESSENTIAL POWER PRIORITY****
RIDING VERY HIGH IN THE COOL CUT CHART

FERRY CORSTEN

'FIRE'

EXTENDED MIX / FERRY'S FLASHOVER MIX
RON VAN DEN BEUKEN REMIX / DUB MIX

'Fire' is the monster new offering from **Ferry Corsten** taken from his second forthcoming artist album, which will be due later in 2006. 'Fire' sees **Ferry** taking a sample from **Duran Duran's 'Serious'** and turning it into a monumental peaktime anthem. Already riding very high in the **Cool Cut** charts and seen the support from **Judge Jules, Matt Darey, Lange, Above & Beyond, Agnelli & Nelson, Riley & Durrant, Mike Koglin, Tall Paul, Scott Mac, Jon O'ir, Adam White, Danny Slade** and **JFK**. As we come to expect from the legendary **Positiva** label a double pack filled with tasty re-works from **Ferry** himself and **Ron Van Den Beuken**. **Ferry's Flashover** mix takes things up a gear; his pumping beats and basslines are fused together with those in yer face riffs and will simply have those true hardcore fans screaming for more whilst **Ron Van Den Beuken** injects the whole groove with so much energy not even a can of **Red Bull** could provide. Last but not least we have **Ferry's** dub, stripping back the vox but still contains enough impact for peaktime plays. Another classic in the making from the **Dutch** master and is **One Essential Power Priority** in the forthcoming weeks. **Reactions are vital!!!**
