FEATURING DELLINE BASS

***"NEED TO FEEL LOVED"***

**12" CLUB MIX & THRILLSEEKERS REMIX**

**Positiva** as always lead the New Year with a bang and unleash the monster that is **'Need To Feel Loved'** by **Reflekt**. Already shaping up to be one of the biggest dance records of 2005 and its already enjoying unprecedented support from the World's DJ elite, including **8** plays from **Pete Tong** on **Radio 1** and support from **Tiesto, Ferry Corsten** and **Paul Van Dyk**. If that wasn't enough, **Judge Jules** has hailed this as one of his biggest tunes of the year.

**Reflekt**, aka **Seb Fontaine** and **Jay P** are a new collaboration from two already highly successful individuals. World-renowned UK DJ, **Seb** has joined cohort **Jay P** (aka **Vern** from **Stretch & Vern** fame) and features the vocals from up and coming singer-songwriter, **Delline Bass**.

**'Need To Feel Loved'** started with **Seb & Jay's** mutual admiration for the movie **'Road To Perdition'** - both agreed it had a killer sound track, particularly the orchestral string pass that now forms the backbone of the track. On this package we have the unmistakable **Original**, that once played will instantly get you hooked and really complements the emotion of **Delline's** vocals to perfection. Whilst on the flip we see the **Thrillseekers** do what they do best and deliver a full on hands in the air monster, but still keeping the emotion of the strings and Delline's vocals. We can tell you that our phones have been off the hook from DJs all around the world, begging for copies, so you have been personally hand-picked for this.

**'Need To feel Loved'** is a key track from the forthcoming film **'It's All Gone Pete Tong'**, set for release in late spring 2005.

**Once again Positiva deliver a top package.**
