Title: WHAT ELSE IS THERE?	Format: CD (LIMITED)	Release Date: 21.11.05

****ESSENTIAL POWER PRIORITY****
RIDING VERY HIGH IN THE COOL CUT'S CHART

WHAT ELSE IS THERE?

THIN WHITE DUKE / VITALIC / TRENTMØLLER/
THE EMPEROR MACHINE/ ALBUM VERSION

'What else is there?' is the third track to be lifted off the critically acclaimed album 'The Understanding'. Currently riding high in the **Cool Cut's** chart and regarded by many as the album highlight. The track features the distinctive vocals of **Karin Dreifer** from **The Knife**. Strangely enchanting and beautiful in equal measure, this has a sound and mood that only **Svein** and **Torbjorn** are able to conjure. Having just completed their biggest tour of the United States to date **Röyksopp** are now bringing the show to the major cities of the UK and Europe. Hot on the heels of the massive '49 percent' remix package the guys at **Wall of Sound** have spoiled us with yet another amazing line up of heavyweight producers in the shape of **Thin White Duke, Vitalic, Trentemøller** and **The Emperor Machine**.

First up is the hugely in demand **Thin White Duke** aka **Stuart Price** delivering another monster mix in his own very distinctive style. Rising French talent **Vitalic** given us a driving electronic mix with stabs and sweeps in abundance. Following the European feel is Denmark's **Trentemøller** with a dirty tech mix incorporating the smooth vocals of **Karin** over a filthy bassline to tremendous effect. The **Emperor Machine** finish off the package with an instrument based houser leading into an epic breakdown. With a package of **Class A** remixes from some of the world's finest producers we really don't need to tell you how big a priority this is over the forthcoming weeks. Ensure reactions are online to guarantee your next **Wall Of Sound** release.
