POWERS MASSIVE NUMBER ONE PRIORITY

Terri Walker

'WHOOPSIE DAISY'

BEGINERZ / FANATIX

HIT & RUN MIXES

Instant support from the likes of **Phats & Small, CJ Mackintosh, Mark Wilkinson, Allister Whitehead** and **Disciples Of Sound**.

Following her **Mercury Music Prize** nomination, **Terri Walker** is back with her brand new track '**Whoopsie Daisy**' taken from her forthcoming album '**L-O-V-E**'. Mercury Records enlists the remix talents of the **Beginerz, Fanatix** and **Hit & Run**. The **Beginerz** kick starts the package in true style, using their unique drum patterns, throbbing bass lines which all compliment Terri's vocals to extreme perfection. This can only be described as a big room tune for the masses, If vocals are not your thing then don't worry because the boys have delivered a very twisted dub to compensate. **Mr. Ross** (1 Xtra fame) and co-producer **Neil Pearce** takes us on a **MAW** type journey with their vox mix and don't be surprised if you hear this right throughout the **Miami Music Conference**, Pure Class. The dub is even more energetic and features plenty of hammond styled chops and a deeper Bass line. Last but not least we have the **Hit & Run** dub, which takes us on a filtered house groove that will please the more funkier minded amongst you. This really is one unique package that needs your full support in the coming weeks!!!
